

I've joined in the boycott of dozens of companies that have sponsored your smear of John Kerry's courageous actions regarding the Vietnam war.

The fact that you refused to air the return of US war casualties draped in our flag but are pressuring your affiliates to preempt other programming to air this smear is not only unfair but probably also illegal under fair election rules.

Sadly the FEC is known to be toothless and slow in their actions but you probably have factored in the fines you'll pay and are well compensated by the republican operatives who are surely behind this smear campaign.

I've also forwarded this to the FCC though they've already caved-in to the pressures (not surprising seeing that the head of the FCC is Colin Powell's son).

Thank you for your attention.
